

## Maria Cosmetic Center

Skin Care & Laser Clinic

### Eyelash Lift After Care

#### What should you do before and after an eyelash lift?

Please make sure to arrive without contacts, concealer, eye makeup (mascara, eyeliner, eyeshadow etc.) on the day of your appointment. Avoid curling your natural lashes with a **lash** curler for 24 hours prior to your appointment.

#### Can you wear mascara with lash lift?

You can wear mascara.

Because it's just your natural lashes being curled, you're free to use whatever eye makeup you wish. You just have to wait 24 hours.

#### How long after Lash Lift Can I shower?

24 to 48 hours

Before and **After** Your Treatment

**Do** not wet lashes for 24 to 48 hours **after** your treatment (This includes steam, saunas, **showers**, swimming, serums, makeup, mascara, etc.)

#### What happens if lashes get wet after lash lift?

Water or moisture should not come in with your **lashes** for at least 24 hours **after** a **lash lift** because water will alter the disulphide bonds in the hair's cortex once they **have** set via chemical change.
